16. RALLY SHOW

SANTA DOMENICA

In addition to being arguably the biggest rally show event in this part of Europe, RSSD is widely regarded as a truly special kind of rally. The idea to organize such a show was born from a deep passion for rallying, with the aim of popularizing gravel rallying not only among drivers, but also among current and future fans of the queen of motorsport and the highly thrilling gravel surface. RSSD is a competition with traditional timekeeping, but what makes it truly unique is the inclusion of a special award for the longest jump. This year's edition consists of 7 special stages with a total length of 36.05 km, while the Shakedown, with 3 permitted runs, has a total length of 10.53 km.

Shakedown 3,51 km

2 x Savršćak by Night (3,75 km)

5 x Savršćak Arena (5,71 km) special stage
